

The background features several light blue circles of varying sizes. Some circles contain small dark blue dots, while others contain small blue-outlined circles. The text is centered over these elements.

AI Agents 101

Exploring the Basics

Types

AI agents can be rule-based, learning-based, or utility-based.

The background features several light blue circles of varying sizes. Some circles contain small dark blue dots, while others contain small blue-outlined circles. The text is centered on the page.

Function

They perceive their environment, make decisions, and take actions to achieve goals.

The background of the slide is white and features several light blue circles of varying sizes. Some of these circles contain small dark blue dots, while others contain small blue-outlined circles. These elements are scattered across the slide, creating a modern, abstract design.

Examples

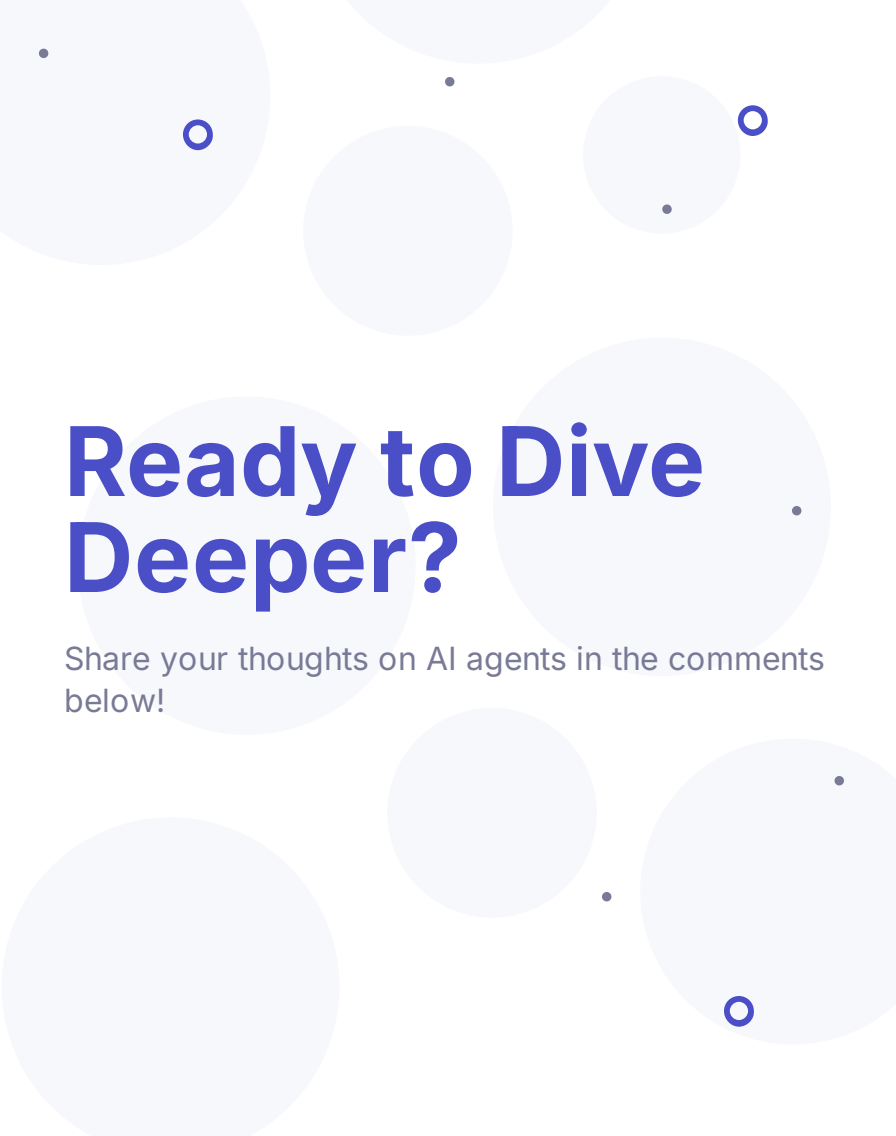

Chatbots, autonomous vehicles, and recommendation systems are all AI agents.

The background of the slide is white and features several light blue circles of varying sizes. Some of these circles contain small dark blue dots, while others contain a dark blue outline of a circle. These elements are scattered across the page, creating a modern, abstract design.

In Short

AI agents come in different types, function by perceiving, deciding, and acting, and are seen in chatbots, autonomous vehicles, and more.
